Contents of Volume 18

Number 1

	1	Highlights
	3	Essay competition announcement
Viewpoint	5	The need to regulate commercial telecoms: issues and options *C.M. Contant*
Papers	9	Orbiting spies—opportunities and challenges *B. Jasani*
	15	Ukrainian national space law from an international perspective *F.G. von der Dunk & S.A. Negoda*
	25	US Military space policy 1945–92 *M. Mowthorpe*
	37	Globalization and commercialization of satellite broadcasting: current issues *P. Achilleas*
	45	An economic assessment of space solar power as a source of electricity for space-based activities *M.K. Macauley & J.F. Davis*
	57	The socioeconomic benefits of Earth science and applications research: reducing the risks and costs of natural disasters in the USA *R.A. Williamson, H.R. Hertzfeld, J. Cordes & J.M. Logsdon*
Report	67	Taking space to the public *D. Wright*
	69	Book reviews
	77	Documentation
	87	Publications
	89	Calendar
	91	Call for papers

Number 2

	93	Highlights
Viewpoint	95	Daniel S. Goldin's legacy at NASA *H.E. McCurdy*
Papers	99	Space traffic control: a view of the future *W. Ailor*
	107	Beyond global: the international imperative of space *P. Hulsroj*

0265-9646/02/$ - see front matter
PII: S0265-9646(02)00058-9

117 Space education: a step forward
G. Ottavianelli & M. Good

129 Continuity of moderate resolution Earth observation data: is an international solution the answer?
R.A. Williamson & R.M. Obermann

135 A failure of international space cooperation: the International Earth Observing System
E. Sadeh

151 Multinational and ethical issues in manned-space strategy
L.M. Covert

Reports

157 Shaping a legal framework for the commercial use of outer space: recommendations and conclusions from Project 2001
S.U. Reif

163 Lord Young of Dartington and the Argo Venture
D. Lunan

167 Book reviews

171 Calendar

Number 3

173 Highlights

Viewpoints

175 The demise of the ABM Treaty and the militarization of outer space
W. von Kries

179 Which institutions for space traffic management?
J.M. Filho

Papers

183 Meeting the needs of the new millennium: passenger space travel and world economic growth
P. Collins

199 Effects of commercialisation in the European space sector
W. Peeters

205 Earth observation and UK science policy
R. Harris

215 Faster conception of radically innovative systems: the strategic and organizational challenge for space agencies
C. Belleval

221 Exploring a structured decision approach as a means of fostering participatory space policy making at NASA
J.L. Arvai, T. McDaniels & R. Gregory

Reports

233 Increasing global awareness of space activities: World Space Week 2001
D. Stone & C. Welch

239 It's all a matter of fact. After all, fact matters
M.S. Goodman

241 Book and film reviews

249 Publications

251 Calendar

253 Call for papers

Number 4

255 Highlights

Viewpoints

257 Why Europe needs space as part of its security and defence policy
A. Kolovos

263 Astrobiology—a new opportunity for interdisciplinary thinking
C. Cockell

267 Desperately seeking life on Mars
S. Connor

Papers

271 A security space capability for Europe? Implications for US policy
J.M. Logsdon

281 Insurance strategies for covering risks in outer space: a French perspective
H. Fabre

287 Public funding of space activities: a case of semantics and misdirection
A. Gaubert

293 The ITU and national regulatory authorities in the era of liberalization
Y. Zhao

301 Fostering links between environmental and space exploration: the Earth and Space Foundation
C. Cockell, D. White, D. Messier & M.D. Stokes

Report

307 Space and ESDP—a growing partnership?
F. Brown

309 Book review

311 Calendar
